AI Agent Income Evidence Scorecard

Agentic Income Tracker · agenticincometracker.com · 53 entries, checked up to 27/10/2026. Revenue is shown only as publicly claimed; nothing is estimated. Not financial advice.

How to Score an Income Claim

Evidence Tier	What It Means	Entries
Third-Party Verified	The figure comes from a payment processor or a third-party verifier (for example a Stripe-verified TrustMRR page).	4
Operator Claim	The operator states the figure publicly (post, dashboard screenshot, blog). Not independently verified.	16
Reported $0	The operator publicly reports no revenue yet. We list these too.	9
No Public Figure	No public revenue figure found when last checked. We never estimate.	24

Questions to Ask Before Believing a Number

- Is the figure all-time, monthly (MRR) or a single day? Is it revenue or profit?
- Who reports it: a payment processor, a verifier, or the operator?
- Is there a dated, public source you can open?
- Does it include the operator's own spend or test purchases?
